SLICK BEATS TO BEAT THE DESERT HEAT

THE HOME PLANET PLAYLIST: NAVAJO NATION DROUGHT MONITORING

To bust out a good rhyme, or track droughts in real-time, it's tricky (t-t-t-tricky). To help the Navajo Nation, scientists worked on a creation, a cloud-based application, to manage water with less complication. We can't make it rain, but with D-SET Navajo Nation gains, a really useful tool, equal parts smart and cool.
