

Applied Sciences Week 2020 Map-a-thon!

Feeling inspired by the power of Earth observations? You can be a part of the solution by joining the Applied Sciences team in a week-long map-a-thon!

Humanitarian OpenStreetMap is a non-profit dedicated to humanitarian action and community development through open mapping. We invite you to participate in a week-long volunteer effort alongside members of the Applied Sciences community!

How to Participate:

1. Sign up for a free OpenStreetMap account by clicking 'Sign Up' at [this link](#).
2. Choose from one of the projects listed below and click "Contribute" to go to the mapping interface. You can follow a brief tutorial there to get started. That's it, you're ready to map!

[Mapping Flood Prone Areas in Brazil](#)

[Urban Planning in Zaria, Nigeria](#)

[Food Security in Davao del Sur, Philippines](#)

No mapping experience required!

The map-a-thon will be open Monday, Aug 3 at 2:15pm EDT thru Thursday, Aug 6 at 5pm EDT – participate as you are available!
